Vendor Name
Address
City, State Zip

Dear Valued Vendor:

To increase process efficiency and payment timeliness, we have recently introduced a new payment initiative to our accounts payable solutions. This new initiative will utilize a VISA Purchasing Cards to pay our vendors. (*Company Name*) is looking to make all future payments to [*Vendor Name*] with a VISA Purchasing Card account.

You may experience the following benefits by accepting the new payment type:

- Improved cash flow and accelerated payment
- Reduced paperwork and streamlined accounts receivable process
- Elimination of stop payment issues
- Reduce payment delays
- Reduce your cost of handling paper checks.
- Settlement of payments directly

In order to begin this process, we will need you to provide a point of contact within your organization that will be able to keep our card account number on file. In this process you will receive an email or phone call authorizing you to process the full payment, in the same manner as you currently would process credit card transactions. Note: The email remittance will indicate all invoices represented in the payment. It is also recommended that you set up a general email alias to receive our remittance advice, so if a new person is assigned to handle card payments, your email contact information will remain valid.

We are fully committed to improving our payment processes, and your participation in our Visa corporate purchasing card program will provide mutual benefits to both of our organizations.

Please indicate below if you are interested in receiving your payment through our VISA Purchasing Card.

_____ Yes – I am interested in participating in your VISA Purchasing Card Program.

_____ No – I am not interested.

Your response can be:

Faxed: _____

Email: _____

Mailed To: _____

Someone from (Company Name) will be contacting you in the coming weeks to discuss this **new initiative.**

Thank you in advance for your support.

Sincerely,

(Client Name)
