# Selling Illinois School Bonds Now and in the Future

This presentation is to be informative and not to promote specific products, services companies, etc. Illinois ASBO Sponsored Programs are permitted to promote products and services in accordance with the Service Associate Ethics Policy and Code of Conduct.

## INTRODUCTIONS

Mohsin, Dada: Moderator

- Chief Financial Officer, Consolidated Community School District 181

Robert Lewis: Speaker

- Sr. Vice President and Managing Director, PMA Securities, Inc.

James Snyder: Speaker

- Partner, Ice Miller, LLP

John Repsholdt: Speaker

- Chairman, Muniex

Tom Crabtree: Speaker

- Director, Stifel Nicolaus & Co., Incorporated

## PRESENTATION GOALS

- Define the various methods of sale
- Define the variables that influence which method of sale is most appropriate for a given transaction
- Provide a comparable pricing analysis and explain how it is useful in determining the success of a negotiated sale
- Discuss how selling and pricing of bonds may change in future

## ROLES

- Financial Advisor (Subset of Municipal Advisor)
  - Assists district with long range debt planning
  - Advises district on borrowing options and proposed tax impact
  - Helps determine most advantageous approach to selling bonds
  - Drafts credit rating presentation and guides bond rating process
  - Often drafts the official statement

#### Underwriter

- The firm that purchases the bonds from the district and distributes them to individual bond holders (the lenders)
- Structures the bonds and provides market expertise to minimize borrowing costs
- Helps to model the long-term financing plan for the district in relationship to projected levy growth and future debt requirements
- Provides market feedback regarding current investor expectations and preferences relative to yield

## ROLES (cont'd.)

#### Bond Counsel

- Prepares all the necessary legal documents and opinions required to ensure the district adheres to legal parameters
- Writes election ballot language and ensure the district adheres to all legal requirements
- Is selected by and works for the district
- Provides market feedback regarding current investor expectations and preferences relative to yield
- Underwriter's Counsel and/or Disclosure Counsel
  - Prepares all the necessary legal documents required for the marketing of the bonds to the public
  - Prepares the legal documentation required to finalize the bond sale between the district and the Underwriter

## **SALE TYPES**

#### Public Offering

- The municipal advisor works with the District to prepare an official statement to send to potential underwriters
- Underwriter selected via a competitive or negotiated sale that will resell the bonds to investors
- District obtains a bond rating
- Requires disclosure counsel to review the official statement
- Will likely have a lower interest rate, but will have higher costs of issuance

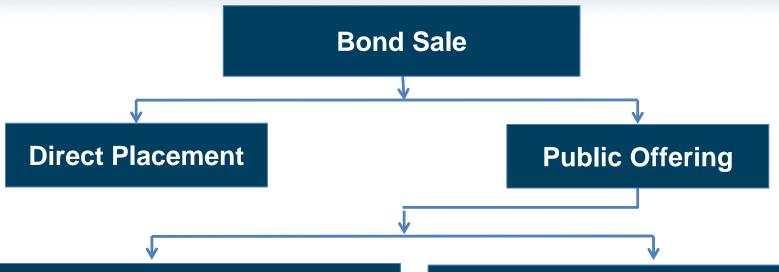

#### Direct Placement

- No official statement, rating, underwriter or disclosure counsel is required
- A term sheet is typically sent out to banks and other local units of government that will provide a proposal to purchase the bonds directly
- The interest rate is typically higher than a public offering but may result in a lower overall financing cost since some costs of issuance are avoided
- This process has typically proven to be effective for relatively smaller bond issues paid off with a shorter amortization
- Bank/unit of government can purchase directly

## SALE TYPES (cont'd.)

#### **Competitive Sale**

- The District engages a municipal advisor to manage the bond issuance process
- Underwriter selected via a competitive sale in which multiple bids are received to purchase the bonds
- The bidder with the lowest true interest cost is selected and sells the bonds to investors

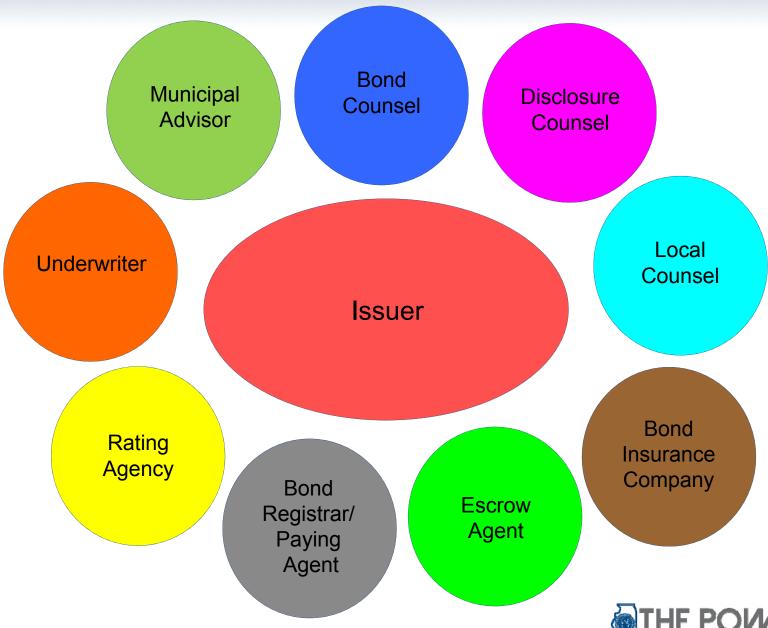

#### **Negotiated Sale**

- The District preselects a broker-dealer as underwriter
- This firm sells the bonds to investors during a pricing period

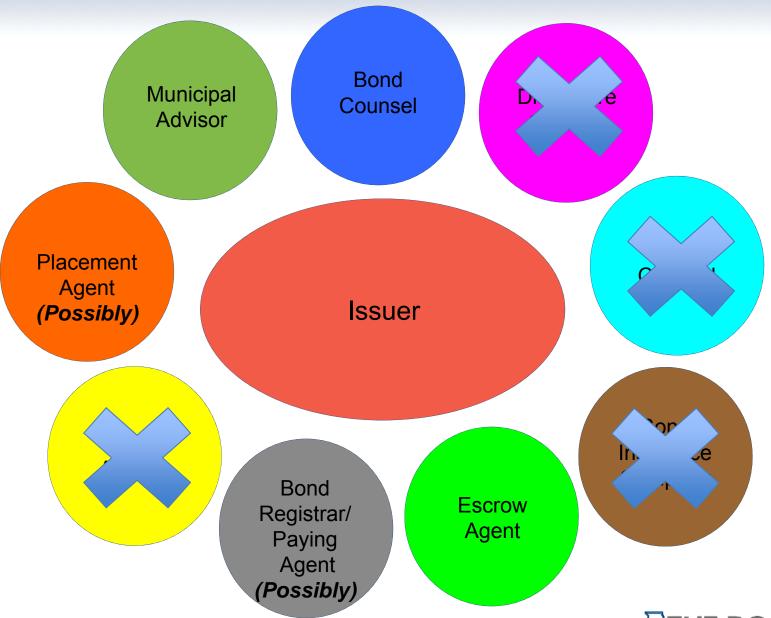

## PARTICIPANTS DURING A COMPETITIVE OR NEGOTIATED SALE

## PARTICIPANTS DURING A DIRECT PLACEMENT

## **CHOOSING THE METHOD OF SALE**

#### A competitive sale is appropriate when:

- Issuer has a strong underlying credit rating at least in the "A" category
- General obligation bonds or full faith obligations (e.g. alternate revenue bonds or debt certificates)
- Structure does not include special features that would require extensive explanation to the market
- Issuer is frequently in the market and/or issue size is conducive to attracting investors

#### A negotiated sale is appropriate when:

- Issuer has a credit rating lower than "A"
- Bond insurance is unavailable
- Debt structure is complicated
- Issuer wants input in how bonds are allocated among underwriting firms and/or the types of investors to be reached
- There is extreme market volatility

## CHOOSING COMPARABLE SALES FOR A NEGOTIATED SALE

- The goal is to find transactions that priced recently, with characteristics that are similar to your district's issue
  - Tax status (tax-exempt, bank qualified)
  - Similar credit rating
  - Location (State of IL, Cook County, etc.)
  - Length of bond issue
  - Bond holder security (General Obligation Bond, Revenue Bond, etc.)
  - Call provisions
  - Coupon structure after the call

## SAMPLE COMPARABLE FILE

- Compare the <u>YTM</u> less AAA MMD column
- Also examine <u>YTC</u> less AAA MMD column to consider value of call option

## BEYOND THE YIELD TO YIELD COMPARISON

- Differences in block size (maturity amounts)
- Differences in underwriter fee affect the total cost of funds
- Examine how bond yields change after the initial underwriting (examine EMMA trade data)
- Market dynamics
  - Events in national or international economy
  - Significant bond issues pricing same day or week that "lead" the municipal market
  - Heavy secondary market activity

#### **PMA Disclaimer**

This presentation has been prepared by PMA Securities, Inc. for informational and educational purposes to units of local government without regard to any particular entity's investment objectives, financial situation or means. The content of this presentation is not to be construed as a recommendation, solicitation or offer to engage in an issuance, or to buy or sell any security, financial product or instrument, or to participate in any particular trading strategy in any jurisdiction in which such an offer or solicitation, or trading strategy would be illegal. Nor does it constitute any legal, tax, accounting or investment advice of services regarding the suitability or profitability of any security or investment. PMA and its employees do not offer tax or legal advice and any entity should consult with its own tax and/or legal advisors before making any tax or legal related investment decisions.

Although the information contained in this presentation has been obtained from third-party sources believed to be reliable, PMA cannot guarantee the accuracy or completeness of such information. It is understood that PMA is not responsible for any errors or omissions in the content in this document and the information is being provided to you on an "as is" basis without warranties or representations of any kind. The analysis or information presented in this presentation is based upon current market conditions which are subject to change. There is no guarantee that the projected yield will be realized and the actual yield will depend on the available investment product and market conditions at the time of investment.

This presentation is solely intended to suggest/discuss potentially applicable financing applications or investment strategies. Any terms discussed herein are preliminary until confirmed in a definitive written agreement. Although market value, market analytics and other information contained in this presentation have been obtained from third-party sources believed to be reliable, PMA cannot guarantee the accuracy or completeness of such information. No representation is made that any results indicated herein will be achieved. Changes to any prices, levels, or assumptions contained herein may have a material impact on results. Any estimates or assumptions contained herein represent our best judgment as of the date indicated and are subject to change without notice. Examples are merely representative and are not meant to be all-inclusive. All investments mentioned herein may have varying levels of risk, and may not be suitable for every investor. Investment in securities involves risks, including the possible loss of the amount invested. In addition, past performance is no indication of future results and the price or value of investments may fluctuate. Asset allocation does not assure or guarantee better performance and cannot eliminate the risk of investment losses.

Securities, public finance services and institutional and municipal advisory brokerage services are offered through PMA Securities, Inc. PMA Securities, Inc. is a broker-dealer and municipal advisor registered with the SEC and MSRB, and is a member of FINRA and SIPC. Prudent Man Advisors, Inc., an SEC registered investment adviser, provides investment advisory services to local government investment pools and separate accounts. All other products and services are provided by PMA Financial Network, Inc. PMA Financial Network, Inc., PMA Securities, Inc. and Prudent Man Advisors (collectively "PMA") are under common ownership.

#### Stifel, Nicolaus & Company, Incorporated Disclaimer

Stifel, Nicolaus & Company, Incorporated ("Stifel") has prepared the attached materials. Such material consists of factual or general information (as defined in the SEC's Municipal Advisor Rule). Stifel is not hereby providing a municipal entity or obligated person with any advice or making any recommendation as to action concerning the structure, timing or terms of any issuance of municipal securities or municipal financial products. To the extent that Stifel provides any alternatives, options, calculations or examples in the attached information, such information is not intended to express any view that the municipal entity or obligated person could achieve particular results in any municipal securities transaction, and those alternatives, options, calculations or examples do not constitute a recommendation that any municipal issuer or obligated person should effect any municipal securities transaction. Stifel is acting in its own interests, is not acting as your municipal advisor and does not owe a fiduciary duty pursuant to Section 15B of the Securities Exchange Act of 1934, as amended, to the municipal entity or obligated party with respect to the information and materials contained in this communication.

Stifel is providing information and is declaring to the proposed municipal issuer and any obligated person that it has done so within the regulatory framework of MSRB Rule G-23 as an underwriter (by definition also including the role of placement agent) and not as a financial advisor, as defined therein, with respect to the referenced proposed issuance of municipal securities. The primary role of Stifel, as an underwriter, is to purchase securities for resale to investors in an arm's- length commercial transaction. Serving in the role of underwriter, Stifel has financial and other interests that differ from those of the issuer. The issuer should consult with its' own financial and/or municipal, legal, accounting, tax and other advisors, as applicable, to the extent it deems appropriate.

These materials have been prepared by Stifel for the client or potential client to whom such materials are directly addressed and delivered for discussion purposes only. All terms and conditions are subject to further discussion and negotiation. Stifel does not express any view as to whether financing options presented in these materials are achievable or will be available at the time of any contemplated transaction. These materials do not constitute an offer or solicitation to sell or purchase any securities and are not a commitment by Stifel to provide or arrange any financing for any transaction or to purchase any security in connection therewith and may not relied upon as an indication that such an offer will be provided in the future. Where indicated, this presentation may contain information derived from sources other than Stifel. While we believe such information to be accurate and complete, Stifel does not guarantee the accuracy of this information. This material is based on information currently available to Stifel or its sources and is subject to change without notice. Stifel does not provide accounting, tax or legal advice; however, you should be aware that any proposed indicative transaction could have accounting, tax, legal or other implications that should be discussed with your advisors and /or counsel as you deem appropriate.

Additional information is available upon request Stifel, Nicolaus & Company, Inc., 501 N. Broadway, St. Louis, MO 63102

### LEGAL FRAMEWORK

- Regulation of Municipal Advisory (Dodd-Frank)
  - Municipal Advisor definition
  - Registering of Municipal Advisor
- Regulation of Underwriter
  - Financial Industry Regulation Authority role is to license and regulate broker-dealer
  - Securities and Exchange Commission role is to protect investors
  - Dodd-Frank Rules

## **Municipal Bond Exchange**

- Why is there not a municipal bond exchange similar to the stock market?
- Can technology be utilized to make bond sale process more efficient?
- Municipal bond exchange works with existing bond financing legal framework.
  - Disclosure
  - Continuing Disclosure
  - Issue Price Determination
  - Regulation of Underwriters and Municipal Advisors
  - DTC Issues

## THE FUTURE

## For Municipal Bond Initial Public Offerings May, 2018

Presented by: John V. Repsholdt, Chairman The National Municipal Bond Exchange, Inc.

### AN EXCHANGE IS IN NEAR THE FUTURE

- One to two years away
- A Patent for this business method is pending
- Detailed summaries have already been submitted to and discussed with the SEC and the MSRB
- Initial marketing to issuers has begun

### WHY AN EXCHANGE?

- Market Efficiency
  - The economic tenants to market function
    - Transparency
    - Access
    - Fairness
  - Market De-fragmentation
  - Market Liquidity and Velocity
- Good Business
  - Lower interest rates and costs for issuers
  - Greater access and liquidity for investors
  - Makes money for the exchange and its members

## **COMMON FUNCTIONS**

- Municipal bond dealers as exchange members
- Order throughput
- Order aggregation and stacking
- DTC clearing

### SPECIAL FUNCTIONS

- Free access to price and bond information
- Group queries
- Order pooling reduces opportunity costs
- New issue options

## Q&As

Q: What if the new issue listing on the exchange fails?

A: Very unlikely because of the following:

- 1. The issuer must use a member firm in a municipal advisor capacity to gain access to the exchange.
- 2. The member firm will recommend the type of offering (over the counter, direct placement or initial public offering) before listing.
- 3. All members may bid on any portion of the listing including the listing member.
- 4. The process of listing is <u>not an offering</u> it is a bid request same as in the competitive or negotiated (over the counter) processes.
- 5. There is never any cost or obligation on the part of the issuer.

## Q&As (cont.)

Q: What is the economic impact?

A: On the order of \$25B annually

Q: Why has this not happened before?

A: Only recently has the opportunity become apparent and as a direct result of EMMA.

Q: Will issuers be required to use the exchange?

A: No.

## Q&As (cont.)

Q: Why will dealer firms want to adopt such a change? A:

- Issuers seeking lower interest rates, lower issuance costs, greater availability of their bonds to local constituents and access to their outstanding bonds for purchase in the secondary market – will demand it.
- 2. Investors seeking market liquidity, execution, access, information and a way to invest in their own communities will demand it.

Q: What will be required of issuers?

A: A simple free application to the exchange and ongoing fulfillment of existing annual disclosure requirements.

## Q&As (cont.)

Q: What will be required of dealer firms?

A: A simple application to the exchange and adherence to exchange rules. The rules will be much less restrictive than existing regulations that are necessary to govern behavior in the current opaque over the counter market place.

## **CLOSING COMMENTS**

- All of the technology, data and intelligence has already been assembled for the future to become a reality.
- Transparency, accessibility and fairness are not only the tenants of economic efficiency they are also OUR free market principals. This is common sense to most Americans.
- Issuers must demonstrate that they "care" before the future will be adopted by dealer firms.

## Questions and Answers

We thank you for your time!
