- <https://www.sasbo.org/>

# SASBO Social Media

- Instagram-sasbonation
- Facebook-SASBO

# Branch out to unfamiliar sessions

- Gain different knowledge and different perspectives from other states
- Meet new people/network

# Expert Exchange

## What is the Expert Exchange?

In continuing SASBO's goal to improve education through the support and professional development of business personnel, we have created the "Expert Exchange". The Expert Exchange consists of monthly online seminars that will allow you to not only listen and watch, but also to ask questions of the presenters and other SASBO members.

- What is the cost? Sessions are offered at a flat fee of \$200 for SASBO Members for all twelve sessions. Just need a few hours? SASBO Members may purchase one (1) recorded session for \$50.
- What if I can't make it for a session? No problem as we know the unavoidable situations occur. If you are not able to participate on the date of the webcast, you will receive an email to view the recorded session when your schedule permits.

# Electronic Resources

An on-line database of best practices and resources in school business management. Items in the database focus on activities that have a measurable impact on school districts.

# SBA Certification

Boost your professional value by earning a leadership certification through SASBO.

The Southeastern Association of School Business Officials provides opportunities for professional education and development that can lead to the designation of qualified persons attaining the School Business Administrator (SBA) certification, which exemplifies a distinction in leadership.

The program is open to SASBO members employed full-time by a school system within the 12 states in which SASBO governs.

Applications are due by December 15 of each year.

# SASBO Intangibles

- **Networking Opportunities:** Connect with peers, industry experts, and other school business officials to exchange ideas, experiences, and best practices.
- **Professional Development:** Access to workshops, training sessions, and conferences to stay updated on the latest trends, laws, and technologies in school business management.
- **Access to Resources:** Gain access to resources such as templates, financial tools, and data analysis software that can improve efficiency in school operations.
- **Knowledge Sharing:** Learn from the successes and challenges of other districts, providing insights into what works and what doesn't.
- **Collaboration and Support:** Receive advice and support in solving complex problems, from financial management to compliance issues, with input from a broader community.
